Subject: Villages at Vigneto

Dear Sir/Madame:

My husband and I moved to Arizona from Illinois late last summer. We quickly learned the critical importance of protecting the water supply in a desert environment.

We urge you to reevaluate the Clean Water Act permit that ACE awarded to Whetsone Ranch in 2006 and which El Dorado Holdings intends to use in their new project, Villages at Vigneto. Given Arizona's ongoing drought and projections for ever more sever droughts in the future, it's imperative that government at all levels take a fresh look at this development with the goal of protecting the local water supply for both humans and animals.

Thank you for your consideration.

Linda and Mark DeVau
